

When performance is riding on the tubes they bend...

...the aviation industry chooses TFB!

For nearly four decades, aviation industry leaders have counted on TFB for bending solutions – mandrels, clamp and pressure dies, wiper dies, and end forming tools. TFB's engineering, expertise, and quality ensure that their tube bending will be the best.

You may not be bending tube for high-speed aircraft, but your product performance can be every bit as good. And it doesn't cost any more to get.

Call, E-mail, write, or visit our web site. Find out why TFB is the performance choice. And ask for our FREE tooling catalog, tube bending manual, goniometer, and wall chart.
